The 4th European Conference on Design, Modeling and Optimization

About ECDMO

ECDMO is becoming one of the leading international conferences for presenting novel and fundamental advances in the fields of design, modeling and optimization. It also serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in design, modeling and optimization and related techniques. Following the successful ECDMO in past three years in Paris, Krakow, Amsterdam respectively, once again, the conference will be held in Athens, Greece during February 15-17 in 2020. ECDMO is also the annual meeting of IJMO Editorial Board. Welcome scholars and researchers working in the field of design, modeling and optimization from all over the world to attend the conference and share your experiences and lessons with other enthusiasts, and develop opportunities for cooperation.
